SAYS UNIVERSITY MEN ARE SERVING THE KING Decoration Awarded in Becognition

Geoffery Butler, Professor at Cambridge, Describes Depletion of

Geoffrey Butler, professor at Cambridge University, a member of the British war commission party, told University Club members last evening what the university men of England have done in the war.

"As an example, from my own university, of that which is typical all over the United Kingdom," he said, "I recall that just before I came over here I went back to Cambridge, and of the teaching staff in my department two of twelve men remained; of a society of history teachers to which I belong one of the twenty was still there, and not a single one of the 100 undergraduates was left. All were in his majesty's service."

Trained Men Valuable.

Mr. Butler told how college-trained men had been valuable in many clerical positions which did not require technical training, but a high order of intelligence. He said the registration of all college men had been of great value, and told how the foremost research worker in electricity of England had registered as "one interested in the teaching of science."

GOMPERS SAYS WORKERS MUST UNITE FOR PEACE

ish Press at Hat Makers' Meeting.

NEW YORK, May 2.-Workingmen everywhere must unite to establish permanent peace in the world, and factional strife among them will not be tolerated, Samuel Gompers, president of the American Federation of Labor, declared at the national convention of the National Cloth Hat and Cap Makers' Union of America, held here yesterday. He said that the Jewish press of this country must not be permitted to dominate the labor movement, and he warnnate the labor movement, and he warned his hearers that unless they quickly settle the differences between themselves and the United Hatters' of America their charter in the American Federation of Labor will be withdrawn. "I believe in free speech, a free press and free assemblage," said he, "but it is not within the province of one publication to dominate the work and progress of the American trade with reverse.

"Some of you may still be subjects of another country, but the fact is that you are in America and your future children and children's children will fight for American ideals. It is not a question whether you are a Jew or a Gentile. The fact is that you are an American wage worker.

"I resent the idea of the Jewish press dominating the American labor movement. The conscience of the American labor movement is far above any press devoted to any particular nationality or religion.

the unnatural appearance they give the hair. All you need to do to gain rich and coveted beauty of hair, without a trace of gray, is to wet your hair with Q-Ban Hair Color Restorer and when it is dry enough expose it to the free and pure sunshine and air, repeating this daily while your hair gradually and evenly returns to its original, uniform shade.

Q-Ban does not pretend to work miracles overnight, remember. Such claims belong to dangerous dyes, sticky paints and the like. Q-Ban's work is safe, permanent and natural and keeps the change from making you conspicuous. Your hair will become more glossy, lustrous, soft, abundant and captivating.

Q-Ban is all ready to use. It is not a dye. It is guaranteed to be harmless. A large bottle costs only 50c at your druggist's. It is the only guaranteed preparation for the purpose.

Your money back if not satisfied. The secret of Q-Ban's wonderful results is the process of oxidation brought about by the exposure of your hair to the air and sunshine after it has been applied. This very process makes it safe and sane and cleanly and is one reason for O-Ban's tremendous popularity. Beware of imitations. Q-Ban is made from a scientific formula of glycerine, swefel, alcohol, ethyle and delicate perfume - the discovery of great chemists. It is endorsed by

Prof. Von Huber. Put your trust in guaranteed Q-Ban and sunshine and air to restore gray hair. "Back to Nature."
